A circular detail view of the corner of the plate. It shows a 30mm horizontal distance from the left edge to the center of the first hole, and a 30mm vertical distance from the top edge to the center of the first hole. The four holes are arranged in a square pattern, with the first hole at the intersection of these dimensions. The other three holes are located at the bottom-left, bottom-right, and top-right corners of the square defined by the dimensions.
